DI TRENTO

Dipartimento di Ingegneria e Scienza dell'Informazione

Corso di Laurea in
Informatica

ELABORATO FINALE

THE N-BODY PROBLEM: COMPARATIVE
ANALYSIS OF CLASSICAL ALGORITHMS,
GRAPH NEURAL NETWORKS, AND HYBRID
APPROACHES.

Supervisore

.....

Co-supervisore

.....

Laureando

Valerio Asaro

Anno accademico 2025/2026

Ringraziamenti

todo

Indice

Sommario	2
1 The N-body problem	2
1.1 Simulating the gravitational forces of celestial bodies	2
1.1.1 The naive approach	2
1.1.2 The Barnes-Hut algorithm	2
1.1.3 The FMM algorithm	2
2 Graph Neural Networks	2
2.1 Applying GNN to the simulation	2
2.1.1 Implementation	2
2.1.2 Error-data collection and analysis	2
3 Conclusioni	2
Bibliografia	2
